

## Good 2 Me

Groove Theory

Baby  
We're so fly 2gether we cud touch the clouds  
If we go-  
I wanna know  
Will you catch me when I come down  
Limit is the sky if u can look me in the eye  
And without  
Any doubt  
Say u'll never lie

Are u gonna be  
Good 2 me  
Are u gonna be  
Everything  
Are you gonna be  
All I need  
Are u gona be  
Good 2 me  
Are u gonna be  
Faithfully  
Are u gonna be  
Good 2 me

My words  
Are the question 2 the answers  
U behold  
U cud lie  
Or u could try  
2 make them good as gold  
And my heart  
Is the place that u cud one day call your home  
If u can't  
Be a man  
Just leave me alone  
If life should let me down  
Will u be around  
To lift me off the ground  
Will u be around  
If life should let me down  
Will u be around  
To lift me off the ground

If we're  
Gonna fly 2gether let's leave  
Space and time  
Thought it's far  
There's a star  
That cud be yours and mine  
There's no thing that I want more than  
Everyone to see  
That it's all about me and u  
Living our dreams
