

# Ride

Groove Theory

Can we go, can we go, can we go  
I've been here a long time  
Seeing the same kinda things go on  
Over and over  
What I got on my mind won't really take too long  
So tell me if you're open  
For taking a ride for an hour or two  
Make it fast or make it slow  
Baby, that's all that I'm asking of you  
Break my heart if you say no

I wonder can we go for a ride  
With ya baby  
I wanna ride with ya, baby  
Go for a ride with you  
I wonder can we go for a ride  
With ya baby

Go for a ride with you  
I'll meet you in the morning  
So we can make it last all day  
Sunrise 'til sundown  
You just say you're coming  
I'll bring music for along the way  
Cruising to the sweet sounds  
Baby, if you don't feel like talking  
Baby, that's all right  
I'll just sit beside you  
And watch the world go by

I need to go, I want to go  
I need to go, with ya baby  
Far away, so far away  
Seeing that I don't have it easy  
I don't live no simple life  
Telling you it's not hard to please me  
You know how to make it right  
And as crazy as it seems  
Come on and help me change my mood  
Baby I know you got the means  
So what do ya have to lose
