

If You Need Me

Groovie Ghoulies

I feel needy.

Why don't you call me?

Said if you need me, why don't you call me?

Don't wait too long when things go wrong.

I'll be there where I belong.

Said if you want me, why don't you send for me?

Said if you want, want, want, all you gotta do is send for me.

Don't wait too long just to pick up your phone.

I'll be there, right there, where I belong.

People always told me, darling, that you didn't mean me no good
.

But I know deep down in my heart, I tried the very best that I
could.

And one of these days, darling it won't be long,
you're gonna come walking through that door.

And I know, in my mind these are the very words you're gonna sa
y to me,

I still love you.

Always thinking of you.

I still love, love, love, always thinking of you.
