

Blues Away

Groundation

No matter what they say
It doesn't matter what game they'll try to play
I will wipe all my blues away
With conscious music and one love to day

I don't want no more, this bodaration
No one could ever stop everyone from over population
Pollution already in our water stream
And say behold the land, oh the land of Iration

I man could never lose the vibrations
On the heading of the heaven's highway
No matter what the problem they want to see
They want to see it in the youngest of their foe

That's how we go carry this a heavy load
This heavy load for Jah-Jah
And we shall feel it mentally, but spiritually, na matter

That's just how I'll stay
