

Fossil Fuels

Groundation

We should all aim to live a life of sustainability
Instead of burning Earth's resources while polluting the seas
They're ripping out the seeds that grow naturally
Inside our Earth, yeah
Leaves the land scarred and wasted for centuries
With no accountability at all

Mankind's greed can never be pleased
Watch them building pipelines across the seas
Now tell me

Let us stand up for the future
Looking back over thousands and thousands of years
We must set the stage proper
For the coming generation

Get off your fossil fuels you fools, yeah
Wake up and think ahead young dread
Protecting the future from this injustice
Honor this Earth as if all life depends
Ahhh-uhhh-uuhhh-uuuuh
Ahhh-uhhh-uuuhh-uhhhh-ayyyyy-yay

There is no such thing in this world as clean coal energy
While politicians keep presenting fracking technology
It's not just global warming its about the air we breath
And the food we eat yeah
The sun, wind, and water give and give and give
In a steady rocking' riddim

Mankind's greed can never be pleased
Watch them building pipelines across the seas
Now tell me

Let us stand up for the future
Looking back over thousands and thousands of years
We must set the stage proper
For the next generation

Get off your fossil fuels you fools, yeah
Wake up and think ahead young dread
Protecting the future from this injustice
Honor this Earth as if all life depends
Ahhh-uhhh-uuhhh-uuuuh
Ahhh-uhhh-uuuhh-uhhhh-ayyyyy-yay
