

# Hold Your Head Up

Groundation

It's bigger than the word, whatever you speak  
You're never gonna try, like you've got nothing to improve  
It's not money that we need, whatever the price  
It's greater than the fee, so there's one thing left to do  
Oh, dreamer

In an ocean that goes on forever, heaven knows  
I man cannot be partial in spiritual war  
So, so I man come to see  
That the whole world is lacking  
A whole lotta love and simple caring

Hold your heads up, hold you head up high!  
Jah will be done  
Hold your heads up, hold you head up high!  
No all those non-believers

In this market place, where fat cat's buy  
World's governments comply... so what?  
Free yourself of pride, stop being rude  
Use patience most of the time, no matter what they do  
To all those dreamer

Look at life as an ocean lasting forever  
Oh, I man know this is crucial in spiritual war  
So, I man come to see  
That the whole world is lacking  
A little love and simple caring
