

# Hypnotized

## Groundation

Hypnotized again, wondering the wildernesses of life  
Spellbound again, lost in the shadows searching for the light

Well are you here? Are you home?  
Nothing to see and nothing to come to be  
Tell me are you here? Is anybody home?  
Nothing to be and nothing left to see  
It hypnotized we

Hypnotized again, caught up in the wildernesses of life  
Spellbound again, searching beyond Earth for a place to hide

Rally them forces guarding  
Many of them come and many of them fallen  
They still rally dem chariots and horses  
History can recall a lost dream  
That hypnotized we

Jah walk the lonely road  
Lonely road him trod  
Knowing what he said was true  
Every step and word they knew  
Again and again they say  
Again and again they know  
Again and again they say  
Again and again they know  
Until the end!  
Hold the line the light!  
Oh ya mad as hell!  
'Til it come to light, it come to light  
It coming back to life

Leaders of the nations they a hypnotized  
Children of the Earth they a hypnotized  
People of the world we a hypnotized  
All the congregations them a hypnotized  
Hypnotized again, hypnotized again  
Hypnotized again, and again and again!  
People of the world, people of the world  
Nations of the world them a hypnotized  
All the congregations them a hypnotized  
Children of the earth we are hypnotized  
Leaders of the world them a hypnotized
