Through times of sorrow and celebration (Celebration, yeah)
Before man walked and talked about
They formed a union where no tribe was left out
You are not left out

So, who a come up with the original riddim?
The heartbeat and the human voice?
Open up the heavens of possibilities
Expanding our minds into infinite degrees

May bring health and strength to you
While others can destroy and some will renew
The powers inside of you, who knew?

Through Persia, Europe, India, and China
