

Run the Plan

Groundation

Man sees what they want to
Or they are afraid to see it
But it's real, real as fire burning
All their once free urban cities

They run the plan to come, run the plan
They run the plan to come, run the plan
They run the plan and like the card that them deal
They shall be cast out, and some shall gain
Liberty and justice, while some will play in vain

And some shall play the game against his heart
Some shall play the game against him soul
And some will be play the game against us all
Some will play the game

They run the plan to come in the ghetto
To miseducate each and every human life
Now they don't want to pick us as if we were the losing hand
But we are not the losing hand
We are not the losing hand

They run the plan to come in a de ghetto tonight
No one laughing when they come asking for some food
Well, you could count them at the door one by one
If you could lead them out of the dungeon into the sun
You could stretch out your thought on forced regions
Bread and bought and sold
Man the original source
Man is the original source

They run the plan to come inna de ghetto
To miseducate each and every human life
Now they don't want to pick us at if we were the losing hand
But we are not the losing hand
We are not the losing

You can stay, you're not at fault
But who can't play must go

Oh Jah-Jah people, are you ready
The time shall come when you will cast them out
Oh Jah people, are you ready to know, to know?

You can stay, you're not at fault
But who can't play must go

Can't play?
You can't play?
You can't, you can't, you can't, you can't, you can't play
You must, you must, you must stay
Jah-Jah people, Jah-Jah people
Well, this is real, this is real I am ready
This is, this is so real, I man ready, I am ready
This is real, yes I am ready, this real, oh

You can stay, you're not at fault

But who can't play must go
You can stay, you're not at fault
But who can't play must go
