

## Try Me

## Groundation

If I had plenty  
And you were hungry  
Yes, I would give on to you  
Just like friends we all have to give onto others

If I was a painter  
I'd paint a picture  
Showing that  
No matter who you be we have to do what lover's do

Yes it is over due  
To love and cherish life in everything we do  
Let your generosity shine through  
May your actions be true  
One and one make two  
Help to pull you through

Try me, try me  
To you all respect is due  
I'm never gonna hurt you  
Try me, try me  
Our love is forever true  
I don't want to lose you

So don't you worry  
There is no hurry  
Patience is a virtue  
Find comfort Jah would never forsake you

Though some may disappoint you  
Don't let this break you  
For in the end  
No matter who you be we have to do what lover's do

For it is over due  
To love and cherish life in everything we do  
So let you generosity shine through  
And may your actions be true  
One and one make two  
Help to pull you through

Try me, try me  
To you all respect is due  
I'm never gonna hurt you  
Try me, try me  
Our love is forever true  
I don't want to lose you
