Never think about what I'd do without 'cause I never doubt  
That he knew what he did, what he did when he made me  
I'm street tested, God made  
Knew I had a gift from the first grade  
I got mad hate, tell me where you at...I don't see ya, partna

I know that you're with me (see me ridin')  
I ain't worried 'bout nothin, ain't worried 'bout nothin

I tellem I live in the fast lane

So, baby, catch up or you slowin me down  
I ain't got time for the ones  
Saying that I ain't the one  
Who can be bigger than haters, who hatin my run  
I only follow the one, son  
I'm in these streets like I'll never give up  
Hustle so hard, this the life that I love  
No one can stop what's already been written  
I'm fitten to answer the question, what's up, I am  
Never gonna be the one that wonders what I'm here for  
Been a long year, but it's only getting better  
When I let the world know what the truth be  
If you hang better hang loosely  
Can't nobody move me, uh uh  
Yeah, life like a movie, uh huh  
I just follow the script my director has writte  
'Cause he knows the ending so, baby, what's up
