

# On Again off Again

Group 1 Crew

Sometimes you make me happy, sometimes you make me sad  
Sometimes you make me feel like things are good then they go so bad  
I wish things were different, I wish we would work  
But I can't help feeling this ain't the love I know I deserve

But I'm cool with that, I ain't even gotta act a fool like that  
Everything I need I can find in the one who never leaves ya  
I know his love is true like that  
There ain't nothing that I can be to make him fall more in love with me  
I know, I know he's not going anywhere

I love the way you really love me  
You're always thinking of me  
With you we're never on again off again  
It's something that I could put my heart in  
And trust it won't be broken  
With you we're never on again off again

I remember giving my heart to people who never knew exactly what it's really worth  
And it's crazy that I kept on doing it, 'cause I had no clue that you wanted me first  
And it's funny how we give everything that we are to someone who doesn't know  
That we are kings and queens, and nothing in between, we are the stars of the show  
That's why I pray that I stand, hold my beliefs in the palm of your hands  
Take my heart, and build a castle around it  
Let someone who loves you be the one who finds it  
Until then, my heart belongs to you  
Through all the ups and downs, you stay true  
I won't find nobody else like you, Jesus, you are my dream come true

I love the way you really love me  
You're always thinking of me  
With you we're never on again off again  
It's something that I could put my heart in  
And trust it won't be broken  
With you we're never on again off again

I can fall in love by tomorrow  
Meet the one of my dreams  
But that don't mean they'll make me as happy as you make me  
You're a tough act to follow  
And you helped me believe that I'm worth the world  
And it's worth the wait, until then I'll sing

I love the way you really love me  
You're always thinking of me  
With you we're never on again off again  
It's something that I could put my heart in  
And trust it won't be broken  
With you we're never on again off again  
On again off again  
On again off again
