Yo introducing the improvement of a natural act  
You hear this beat drop and watch it move the front to the back  
And it? s actually time to react to a crew that? s in fact  
Bringing back the illest raps we know the industry lacks

So what you know about this hotness  
Standing in the back bumpin? fists, I bet you didn? t know

Not sweatin? hard enough you gotta work it up  
Here we go to the floor, I tell you once more  
Chop it up 'cause you standing like a vegetable

Hot like safari, shop like a Gotti  
We walk in and shock everybody  
Me and my boys, ya we rock the party  
Soon as we start to run everybody say

Can? t stop movin' your crew they make me say  
Ooh, where your team stay, can you work with me?  
Just come with us and let us lead the way

We got that swagga that? s hotta than summer time in Nevada  
We rockin? shows that are harder than most of the stars y'all follow  
Ain? t to stopping the power of three destined by the Father only  
To make y? all sing a melody that carries volume

We laid low for a while but we couldn? t hide the style  
Of two emcee? s a vocalist who bring that funky sound  
Check your local listings 'cause we comin? to your town  
Bringing something new that got the earth shaking its ground

See who you know can rock a crowd the way we do  
Then go to Cali and make Hollywood pump its fists too  
Fill up a secular venue and get love from them too  
And not for a moment ever have to sacrifice the truth

Hot like safari, shop like a Gotti  
We walk in and shock everybody  
Me and my boys, ya we rock the party  
Soon as we start to run everybody say

When spiritually we turn our faith into a physical hit
