

# Poison Tree

Grouper

Throwin' poison seeds into the wind  
Make the poison tree to grow in me begin  
Let your branches fork my veins  
Let your honey tide in me  
Blood lovin', poison whisperin'

Oh, beautiful poison tree  
Let your power grow in me  
Let your sorrow flow in me  
Take away my blood and bones  
Make your flowers deep inside of me

Least I'll still have company  
My inside, tiny poison tree  
I'll seal my love in me  
Tiny beautiful poison tree

Oh, beautiful poison tree  
Let your power grow in me  
Let your sorrows sow in me  
Turn me into a poison tree

Turn me into a poison tree  
Make my shadow go away  
Make my branches strong and hard  
Make my leaves flower and spread  
Make me feel like something powerful is growing deep inside of me  
Turn me into a poison tree
