

We've All Gone to Sleep

Grouper

We've all gone to sleep
We've all gone to bed
We wait for our dreams to fill our heads

We've all gone to sleep
We've all gone to bed
We wait for our dreams to fill our heads

And when we awake, staring at the ceiling
Wish the people stay...
And when we awake with the sky around us
(With the sky around you)
You use the sky as cover

Don't get too lost in dream world
You might never come back
Don't get too lost in your world
(Don't get too lost in your dreams)

And when you awake again
You were the way
You were so useless after dark

We've all gone to sleep
And sleep
And sleep
And sleep
