

Wall

Grouplove

I'm just sitting on a wall
I'm always tryin' to do it all
Really wanna get away
To where, I really couldn't say
I'm just sick of all this shit
And everyone who's buying it
I'm just sitting on a wall
When I fall, I fall

Yeah, we got lucky
Fell into place
We found some friends
Some stayed, some passed away
And when we realize that our life is long
You already halfway gone

I'm just sitting on a wall
I'm always tryin' to do it all
Really wanna get away
To where, I really couldn't say
I'm just sick of all this shit
And everyone who's buying it
Yeah, I'm just sitting on a wall
When I fall, I fall

So it was said
Everyone is fearful
Everyone's full of dread
All our eyes are covered in wool
Yeah, I'm scared, but there's really no need to be
It goes around and around
Promise me that we will never let life beat us down

And if you wanna dance, just follow me, let's take a chance
And if you wanna cry, just hold your head up to the sky
Rock and Roll, no, you won't save me
And if you wanna play, that's fine with me, I love this game
And if you wanna dance, I'd love to take you by the hand
Rock and Roll, no, you won't save me
The only thing that can, will always be with you, my love
The only thing that can, will always be with you, my man
Rock and Roll, no, you won't save me

Rock and Roll, no, you won't save me

I'm just sitting on a wall
When I fall, I fall
I'm just sitting on a wall
When I fall, I fall
