

# Big Steppa

grouptherapy.

Deep in my feelings, I tiptoe  
Real in my feelings, I tiptoe

Dance with my feelings, I tiptoe  
Swim blue, but I'm not a Crip though, okay  
We be investing in crypto, but won't spend a cent on our mental  
It's really insane  
Killing your confidence, criminal  
That line is not a subliminal  
No use in wasted potential, no way  
Now I'm big steppin', bitch get out my  
Get out my muhfuckin'

Once she hold my hand, might never let go  
I'm big steppa, I know  
Watch my step, nigga, no  
What is tiptoe?  
I'm big steppa, I know  
Plant my soul, wherever I goes, I grow  
I'm big steppa, I know  
Watch where you stand, might end up in the sand fosho  
I'm big steppa

I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step  
I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step

I know how to make your earth quake on arrival  
For your spot, Jackson, no Michael  
Aim for top 5, nigga fuck an idol  
I been reading Forbes, I been studying the Bible  
I am not a God, nor a poet, nor disciple  
I have never fit in your descriptions or your titles  
I go by Big Steppa  
She ask me when I'm letting up on 'em  
I told her, "Bitch, never"

Once she hold my hand, might never let go  
I'm big steppa, I know  
Watch my step, nigga, no  
What is tiptoe?  
I'm big steppa, I know  
Plant my soul, wherever I goes, I grow  
I'm big steppa, I know  
Watch where you stand, might end up in the sand fosho  
I'm big steppa

I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step  
I take one very big step

Then take another very big step  
Then take another very big step  
Then take another very big step

It's a shame, 'cause I used to be shy  
I would hide, duckin' off to the side  
Look to the sky, like I wish I could fly  
You never know if you never do try  
But something inside told me I got nothing to hide  
Just open your eyes and kiss all of the fear goodbye  
Talkin' tears of joy, that's the realest kind  
Don't let opinions ever steal your joy, I had to get back mine  
Under ya shade, nigga still I shine

Once she hold my hand, might never let go  
I'm big steppa, I know  
Watch my step, nigga, no  
What is tiptoe?  
I'm big steppa, I know  
Plant my soul, wherever I goes, I grow  
I'm big steppa, I know  
Watch where you stand, might end up in the sand fosho  
I'm big steppa

I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step  
I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step

I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step  
I take one very big step  
Then take another very big step  
Then take another very big step  
Then take another very big step
