

## raise it up!

grouptherapy.

Knock, knock (What?)  
Open the door at the pit stop  
The bitch hot  
Been in the bag since Kidz Bop  
And the kid look big in a wristwatch  
And she hid innocence in a Ziploc  
But this bitch not gettin' it, spot  
Rid of it, not with it bitch  
Not with the shit  
Stop, quit it, bitch

I ran out the back do'  
Don't know where I'm at, I need to relax  
I'm bringing it back, ho  
I'm losing my act, forgetting my stacks  
You finna get smacked, bro

It's over for you (Raise it up)  
Yes, I implore you, stop hatin'  
It's better for you (Raise it up)  
Just might employ you  
My shit comes with benefits you (Raise it up)  
Cannot afford to waste on fucking petty issues (Raise it up)  
You done made me have to (Raise it up)  
It's over for you (Raise it up)  
Yes, I implore you, stop hatin'  
It's better for you (Raise it up)  
Just might employ you  
My shit comes with benefits you (Raise it up)  
Cannot afford to waste on fucking petty issues (Raise it up)  
You done made me have to (Raise it up)

Pull up on a bitch in a Louboutin slipper  
With a pre-roll chillin' in my tube sock  
Lickin' on my tooth like, "Ooh, I'mma chew, my nigga"  
My boo said, "Ooh, do you, my nigga"  
My dude, you move like moo, my nigga  
My nigga steam whistle like choo, like choo  
Like choo, like choo, like choo, like choo  
Like choo, my nigga, get a broom, my nigga  
And a room, my nigga  
Might put you in a motherfuckin' tomb, my nigga  
Nah, fuck it, that's what I'm gon' do, my nigga  
I swear, that's what I'm gon' do, my nigga, I swear  
I'll kill you, I don't care  
Then I bill you, want my share  
If you ask me for a lower price  
I'm gon' raise it up and that's fair  
I'm gon' raise it up, way up there  
I'm gon' raise it up, way up there  
I'm gon' raise it up, I'm gon' raise it up  
Don't play with us, I'm gon' raise it up  
I'm gon' raise it up, I'm gon' raise it up  
Gettin' paid as fuck, I'm gon' raise it up  
If you cross the line, you get razored up  
I'm gon' raise it up, I don't care
