

Liberate Me From The Love Song

Gruff Rhys

There are times when we are broken
There are times the pieces break
You can glue them back together
But you'll feel a little ache

So liberate me from the love song
Liberate me from the love song
Liberate me from the love song
To survive another day

You can follow [?]
When the tremors have moved on
You can patch up from new feelings
On the railings of regrets

But liberate me from the love song
Liberate me from the love song
Liberate me from the love song
To survive another day

Truth be known to angels
False though it's known to thieves
Friendship to the broken
Water to them leaves

Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
To survive another day

Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
Liberate me from the love song
To survive another day
