Negative vibes

Take a skip out of the dark  
Take a left beside my heart  
In your path leading to the center of the sun  
We'll agree to disagree  
Set example by the tree  
Wash the cobwebs and the sorrow all away

As the wind is in the sails  
Paper nation blows away  
It takes times to take advantage of today

You and I can conquer all the negative vibes  
Hang around with our lives together or apart  
You and I can conquer all the negatives  
Conquer all the negatives  
Conquer all the negative vibes

Shield the sun from your eyes  
With a mask disguise  
Shaped like Saturn or a tom cat running in the rain  
You and I can conquer all the negatives  
Conquer all the negatives  
Conquer all the negative vibes  
Vibes, vibes, vibes  
Negative vibes

Raise a shot, raise a cup  
Took advantage out of touch  
With a swell of opinion in the line  
Faced by north, I have to go  
We'll deflate you, let you go  
You'll go flying over valleys down below

As the wind takes you away  
We shall keep the fear at bay  
It takes times to take advantage of today

You and I can conquer all the negative vibes  
Hang around with our lives together or apart  
You and I can conquer all the negatives

Don't wanna take you 70 father [?]  
Regenerating negativity and hostility
