

## Oh Dear!

Gruff Rhys

Early morning waking up  
In the future, on computer  
Take you to a coffee shop  
Write a letter to feel better  
Pixelated Gods is ours  
Says no function, in completion  
Of our tasks so day to day  
Tooth decay will kill me off, oh dear

Oh dear  
Oh dear

Apathy sings such a day  
Faced by all the things  
Sincerity plague my everyday  
Life emotion, self promotion  
All aggressive that is earned  
Stand up proper, pull your socks up  
Somehow is from here to there  
No alternative of man, oh dear

Oh dear  
Oh dear

In the ocean friends collapse  
Of exhaustion, no precaution  
Laugh up to a better plan  
Skip when more to getting more rest  
We are barons bayonette  
My existence trumps absistence  
To [?]  
Sabotaged by arrogance and fear

Oh dear, oh dear  
So near, so near  
Goes clear  
So near  
Forsee  
Oh dear, oh dear  
Oh dear  
So clear  
So dear  
Draw near
