

## Selfies in the Sunset

Gruff Rhys

World champions of despair  
You may wonder why I care  
Apocalyptic mushroom clouds  
Tower above us, I think aloud

No silver linings, this is the end  
Get your phone out to document  
Selfies in the sunset  
Won't get you many likes  
Look into the mirror  
Until the moment's right  
For selfies in the sunset  
The nights about to fall  
So wake me in the morning  
At the beginning of alien dawn

No Gibson house with rage  
The worst timeline of his age  
Thirty-four in the Hollywood Hills  
One dimensional low of thrills

It's the last film that we'll ever see  
Armageddon wants company  
Selfies in the sunset  
Won't get you many likes  
Stare into the mirror  
Until the moment's right  
Selfies in the sunset  
The backdrop's blazing red  
And everyone is equal in the valley of the dead

Count to three and pout your lips  
Hit the flash with your fingertips  
Selfies in the sunset  
Won't get us through the day  
Wake me in the morning  
When everything's astray  
For selfies in the sunset  
The night's about to fall  
So wake me in the morning  
At the beginning of alien dawn
