

Machine Action

Gruntruck

Here in town, hear wolves
I found myself inside them
Too intent, too alive
I thought it was the old slide
I broke my songs with guns
The words they came like dying
The action moved around
Around, around, around, around

Tight thing hold inside
My head was right beside them
Little guns for me
And little guns for their time
Looting like a thief
Got me in believing
The madness spins around
Around, around, around, around, yeah

Little machine action, well
Got fire delivered for me
Little machine action, yeah
Machine action!

Here in town, hear wolves
I found myself inside them
Too intent, too alive
I thought it was the old slide
I broke my songs with guns
The words they came like dying
The action moved around
Around, around, around, around, yeah

Little machine action, yeah
Got fire delivered for me
Little machine action, well
Machine action!
