

Caught Up

Gryffin

I've been thinking
That I want you
'Cause I'm caught up in every little thing you do
Am I dreaming?
Yeah, I wonder
'Cause I'm caught up

I've been missing you all night long
I don't even know why
Listening to my favorite song
I got you on my mind
See your face everywhere I go
And I don't even try, no
I don't even try
Don't even try

It goes on and on and on and on
Is it so wrong?
I hate the sound of moving on
Look what you do
Look what you do to me
Yeah, I got you on repeat, so

I've been thinking
That I want you
'Cause I'm caught up in every little thing you do
Am I dreaming?
Yeah, I wonder
'Cause I'm caught up in every little thing you do

Every little thing, every, every little thing
Every little thing, every, every little thing
You do
Every little thing, every, every little thing you do
(You do, you do)

You got more than a piece of me
You could have the whole thing
Think I'm stuck in my favorite dream
Wake me up in fifteen
I'm obsessing and it's no good
But I don't even mind, no
I don't even mind

It goes on and on and on and on
Is it so wrong?
I hate the sound of moving on
Look what you do
Look what you do to me
Yeah, I got you on repeat, so

I've been thinking
That I want you
'Cause I'm caught up in every little thing you do
Am I dreaming?
Yeah, I wonder?
'Cause I'm caught up in every little thing you do

Every little thing you do

Every little thing, every, every little thing

Every little thing, every, every little thing

You do

Every little thing, every, every little thing you do

(You do, you do)

(Every thing you do)

Every little thing you do

In every little thing you do
