

# DANCE THROUGH THE NIGHT

Gryffin

Hold my hand, let's dance through the night  
Dance through the night, dance through the night  
All I need is you by my side  
We'll be alright, we'll be alright

They say we're crazy  
They say we lost our minds  
Baby, we're never slowing down  
Lost in a daydream  
Go call it what you like  
We're flying high, won't touch the ground

All of the stars may fall  
But we'll catch 'em all  
Cuz our love will keep us safe  
And if the sun explodes  
And the days turn cold  
Got a fire that never fades

Hold my hand, let's dance through the night  
Dance through the night, dance through the night  
All I need is you by my side  
We'll be alright, we'll be alright

Dance through the night, dance through the night  
Dance through the night, dance through the night

The world is spinning  
Move at the speed of sound  
Somehow we never fall apart  
We push the limits  
Cuz time is running out  
Spend every minute in your arms

All of the stars may fall  
But we'll catch 'em all  
Cuz our love will keep us safe  
And if the sun explodes  
And the days turn cold  
Got a fire that never fades

Hold my hand, let's dance through the night  
Dance through the night, dance through the night  
All I need is you by my side  
We'll be alright, we'll be alright

Dance through the night, dance through the night  
We'll be alright, dance through the night

Dance through the night, dance through the night

Hold my hand, let's dance through the night  
Dance through the night, dance through the night  
All I need is you by my side  
We'll be alright, we'll be alright
