

The cracks in the pavement the lights still find
Flower of patience, acquired find
If we fall apart, we just start over again
'Cause we know that courage is our only defense

We don't care what others see
Blooming every season
Shadows to a dream
Dandelions grow in the fire, in the snow
Unstoppable
We got sunshine in our bones
Dandelions

Dandelions
We don't care what others see
Blooming every season
Shadows to a dream
Dandelions grow in the fire, in the snow
Unstoppable
We got sunshine in our bones
Dandelions
