

Feel Good

Gryffin

Yeah, I doubt, I doubt myself
And I'm too proud to ask for help
When you see me beside myself
I don't have to explain it, baby
Yeah, I'm over picking fights
And tryna mend it with the high
Don't wanna know that I'm not right
I know that I've been lately, lately

Yeah, sometimes I need someone to pick me up
Overdose my mind with the things I love
You can take me there, where my heart beats
Where my heart beats free

Take my hand in the middle of a crisis
Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like it
Take my hand in the middle of a crisis
Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like it

You make me, you make me feel good

Yeah, I get over-overwhelmed
When all these problems burn like hell
Maybe I just need a friend
Who never calls me crazy, crazy

You pull me off the front
Line before I run
Keep me cool, but not
Get overdone
You can take me there, where my heart speaks
Where my heart speaks free

Take my hand in the middle of a crisis
Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like it
Take my hand in the middle of a crisis
Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like it

You make me, you make me feel good, I like it, I like it
You make me, you make me feel good

Taking the weights off (oh)
To help with the pressure
And I was here stressing
Thinking it mattered
Been with you for hours, but it feels like seconds
It's only moments and I'm in heaven
It's only moments and I'm in heaven, oh

You make me feel good
You make me feel good
You make me, you make me feel good, I like it

Take my hand in the middle of a crisis
Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like it
