# Glitch In The Simulation

**Gryffin**

Damn, I'm still alive
Isn't it great
Suns in my eyes
Sure you need rain to make a rainbow
But I haven't worn my raincoat
In sometime, like almost a year
Since I woke up
Covered in tears
Lately my salt stays on the table
But I don't trust that the legs are stable

When I've got nothing left to fix
Can't help but think that it's a glitch
In the simulation
Oh if it is
Tell me how to make it last awhile
When I've got way too much to risk
I'm terrified it's just a glitch
In the simulation
Oh if it is
Tell me how to make it last awhile
Is it a glitch
In the simulation
Oh I it is
Tell me how to make it last
Cause I—

Don't want to move
In case it goes wrong
Too much I'm scared of losing
If this was a rollercoaster
I'd be over thinking the drop
Stuck at the top

When I've got nothing left to fix
Can't help but think that it's a glitch
In the simulation
Oh if it is
Tell me how to make it last awhile
When I've got way too much to risk
I'm terrified it's just a glitch
In the simulation
Oh if it is
Tell me how to make it last awhile

Is it a glitch
In the simulation
Oh if it is
Tell me how to make it last

Is it a glitch
In the simulation
Oh if it is
Tell me how to make it last
