

# LONELY

Gryffin

Moving through the dead of night  
Lonely broken satellite  
I can see you struggling  
These heavy hearts inside of us  
Paid the price for trying to love  
We're still here recovering

Baby, you're okay, you're safe here  
There's no way I'll let you down again  
I'm not like them

No, I'm not giving you up  
No, you've had plenty of love  
That left end never came back  
But I will never leave you lonely like that  
I know times have been tough  
But if you give me your trust  
I'll give you all of me back  
Yeah, I will never leave you lonely like that

I will never leave you lonely like that  
I will never leave you lonely like that

Seek you on the deep of life  
Cause you've got scars and so do I  
I can see you struggling  
Stores came back you cold as I  
Cause you've broke your heart a couple times  
Me no harm so let me in

Baby, you're okay, you're safe here  
There's no way I'll let you down again  
I'm not like them

No, I'm not giving you up  
No, you've had plenty of love  
That left end never came back  
But I will never leave you lonely like that

I will never leave you lonely like that  
I will never leave you lonely like that

Yeah, I will never leave you lonely  
Yeah, I will never leave you lonely like that  
Yeah, I will never leave you lonely  
Yeah, I will never leave you lonely like that
