

Reckless

Gryffin

Driving it blind
I know you're reckless too
Chasing new heights, yeah
I know you're reckless too

Yeah, just like a firefly in Tokyo
They don't see us for all the neon glow

I can tell you're different
Falling from the stars
From a different planet
Drifting in the dark
Put my arms around you
Thought I was alone
Let's go where no one knows

Driving it blind
I know you're reckless too
Chasing new heights, yeah
I know you're reckless too, ey
Heated summer nights make us lose our minds, got us acting wild
Nothing to hide, yeah
I know you're reckless too

Sometimes I wish I had a plan for us (for us, for us)
You look at me and say I think too much, oh but

I can tell you're different
Falling from the stars
From a different planet
Drifting in the dark
Put my arms around you
I thought I was alone
Let's go where no one knows

Driving it blind
(Driving it blind)
I know you're reckless too
Chasing new heights, yeah
I know you're reckless too, ey
Heated summer nights make us lose our minds, got us acting wild
Nothing to hide, yeah
I know you're reckless too
(I know you're reckless)
