Remember

Gryffin

You love to talk without thinking
But never know what I'm thinking
And then I think about leaving
But I'm gonna need your love
I'm gonna need your love
Sometime you say I'm depressive
Then I get all defensive, ooh
I see you trying to question
But you're gonna need my love
You're gonna need me

Don't you remember
With all we used to do for each other
Remember the night we fell for each other
When I was yours and when you were mine
Remember that time

The night we fell in love
The night we fell in love
The night we fell in love, oh yeah
The night we fell in love, mm
The night we fell in love
You're gonna need my love
The night we fell in love
You're gonna need me

Don't you remember
With all we used to do for each other
Remember the night we fell for each other
When I was yours and when you were mine
Remember that time

It's like we're numb to the feeling
The one that used to be healing
And now I know that I need it
But I'm gonna need your love
I'm gonna need your love, mm
'Cause loving you it ain't easy, aha
The hardest part is believing, ooh
Then our love ain't just the season
You're gonna need my love
You're gonna need me

Don't you remember
With all we used to do for each other
Remember the night we fell for each other
When I was yours and when you were mine
Remember that time

The night we fell in love
The night we fell in love
The night we fell in love, oh yeah
The night we fell in love, mm
The night we fell in love
You're gonna need my love
The night we fell in love
You're gonna need me

Don't you remember
With all we used to do for each other
Remember the night we fell for each other
When I was yours and when you were mine
Remember that time

You're gonna need my love
You're gonna need my love, ooh
You're gonna need my love
You're gonna need my love, mm
You're gonna need my love
You're gonna need my love, aha
Your love, I'm gonna need it
You're gonna need my love

The night we fell in love
The night we fell in love
The night we fell in love
The night we fell in love
The night we fell in love
You're gonna need my love
The night we fell in love
You're gonna need me

Don't you remember
With all we used to do for each other
Remember the night we fell for each other
When I was yours and when you were mine
Remember that time

The night we fell in love
You're gonna need my love
You're gonna need my love, ooh
You're gonna need my love
You're gonna need my love, aha
Your love, I'm gonna need it
