

Electric

GS Megaphone

Plug me in
Holy power shooting through my veins
Here I go
Off to save the world once again

You can not take me
God lives through me

I'll go on
Until my source of power is no more
Praise the Lord
He keeps going on and on and on and on

You can not take me
God lives through me

You are my love
You are my strength
You're all that's perfect
And I want everyone to say
That I am electric
And you are my source
That I am electric
And you are my source

I am You
You in me
Only when I can ever be
Cause everything is nothing until
Something leads me back to You
Everything is nothing until
Something leads me back to you

Cause You are my love
You are my strength
You're all that's perfect
And I want everyone to say
That I am electric
And You are my source
That I am electric
And You are my source
That you are my

You are my love
You are my strength
You're all that's perfect
And I want everyone to say
That I am electric
And You are my source
That I am electric
And You are my source

You are my source
