

# Confidence

GSoul

Let me be the one to elevate  
Your mind and soul, I'll show you how to paint, yeah  
The world full of hopes and dreams you pray for  
I think I might have something great to offer

Hold my hand, follow my lead, yeah  
Take a chance, you only got one life to live  
And I wanna make sure I'm here to be  
What you can admire

Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you

Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you  
You  
You  
You  
You, yeah

Check me when I'm crossin' the line  
Hold me when I'm 'bout to be cryin'  
Only you get my vulnerability  
Sometimes I'm lost in insecurities

Hold my hand, follow my lead, yeah  
Take a chance, you only got one life to live  
And I wanna make sure I'm here to be  
What you can admire

Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you  
Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you

Got that confidence, baby  
Let me take you higher, baby  
Yeah

Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you  
Confidence in me and you  
Confidence in love with you  
Takin' chances in these brand new feelings  
With my faith in you  
You (You)  
You

You, yeah
