

Stop Running From Love

GSoul

Tomorrow is never promised to nobody nobody
Today you look so different
Like somebody to love, to love
I know you're hurt from your past
I'm not tryna put you to test no, no

Stop running from love, from love
Stop running from love, from love
Stop running from love

You said you'd never give your heart to nobody, nobody
But today you look just different
Like somebody to love, to love
Baby, I know you're hurt from your past
I'm not tryna put you to test
Oh, trust me I'm just tryna love you, baby

Stop running from love, from love
Stop running from love, from love
Stop running from love

Baby, you don't have to keep running, no
'Cause if you never take a chance
You'll never find true love
No

Tomorrow is never promised to nobody, nobody
Today I feel so different
Like somebody who's ready to love, to love
