

Cried All Out

Guano Apes

When you run in circles and you drift away
Just wait from better days
Then you've left to rest yourself
From yesterday

And all I know you're not just like the others
And we will hold this forever
Cause you're mine

And when I drive a thousand miles away
I remember the part [?]
Just like a naked thing

Carry on
We have cried all out
Now baby look
The cure must be an endless song
You gotta carry on
We have cried all out
I'm saving I'm saving
Even if you angels fall

When your love is over
And you have to play
Just play the better way

Then you have to free yourself
Anyway

I just look up and say

Carry on
We have cried all out
Now baby look
The cure must be an endless song
You gotta carry on
We have cried all out
I'm saving I'm saving
Even if you angels fall

And when you look up at night to the stars
I'm always gonna be there oh yeah
And when your heart is strong to be soul
The music is gonna take care oh yeah!
