

It's Not Over

Guano Apes

The wrong time
The wrong place
Your love crashed
And you can't erase
The right side
Of the wrong road
Heartache and the nights
grew cold
But you let times change
And here on your way yeah
You made a good sound your own
You're not gonna let
life go

A new day, a new light
Take the black, paint it bright
All the wrong turns to right
It's not over.
Watch the worst come undone
Feel the rain moving on
Yes, you're right
Free at last
It's not over.

The big loss
The free fall
It all matches strong
After all
Back up from the all time low
So good to see
Your bright eyes glow
Yeah you let times change
And here on your way yeah
You made a good sound your own
You're not gonna let
life go

A new day, a new light
Take the black, paint it bright
All the wrong turns to right
It's not over.
Watch the worst come undone
Feel the rain moving on
Yes, you're right
Free at last
It's not over.

You walk that way
You make it true
Throw the past away
When I'm with you

A new day, a new light
Take the black, paint it bright
All the wrong turns to right
It's not over.
Watch the worst come undone

Feel the rain moving on
Yes, you're right
Free at last
It's not over.
