

Pretty In Storm

Guano Apes

You gave me wine
To poison me and take away my time
I can hear your cry
I wonder why

Cause nothings good I can explain
Im falling down and caught up the rain
Cause
I turn myself into changes
The night I kissed you goodbye

You want to live a lie
I'm pretty in scarlet
Come on
You want to wash it down
I'm pretty in scarlet

Come come try
draw your scale
try to make it special
don't throw it all away
the time might be untrue
don't screw the day
theres something more to do

...so special
you are a special germ
you're so special
in a restless world

You want to live a lie
I'm pretty in scarlet
Come on
You want to wash it down
I'm pretty in scarlet
I turn myself to say goodbye
You want to live a lie
I'm pretty in scarlet (pretty in storm)
You want to live a lie
I'm pretty in scarlet (pretty in storm)

It's O.K., doesn't count
Found my place
A deeper sound
Let me dive alone
Let me dive alone

Poor poor fame
still insane
buy me a ticket
to get and go away
the world in my pocket
shows me a way
out of empty secrets
no more yesterday

... so special

you are a special germ
you're so special
in a restless world

Are you ready
to attack the storm (What?)
are you ready
to attack the storm (What?)
are you ready
are you ready
(pretty in storm, pretty in storm)

I agree it's enough to be just me
silently theres a private symphony
I'm lying here with some monsters in my bed
I'm crying here with some monsters in my head
I'm lying here (pretty in storm)
I'm crying here (pretty in storm)
I'm lying here (pretty in storm)
I'm ready to run with the storm

You want to live a lie
I'm pretty in scarlet
Come on
You want to wash it down
I'm pretty in scarlet
I turn myself to say goodbye
