

Ayy

Uh, always workin' hard, I just got it in my genes (Uh)
Think so much, I think my brain is burnin' calories (Uh)
I'm mostly quiet, but I'm always wildin' when I drink (Uh)
To you, it's fantasies, but to me, it's just last week (Uh)
I don't never stress none of that shit from yesterday
At nine, I got a date, told her that she could pick the place
Don't tell me we're the same, little bitch, this is night and day
I thought we was in Bali, shit feel like holidays

I spent my day with a smile and with my soul intact
But you just spent your day on simpin', hopin' that she gon' call you back,

You say you rollin' deep, those numbers 'bout to get reduced
I came from Indonesia, but inside I never moved
