

# I'll Never Leave You

Guardian

It's late at night  
And you're all alone  
Tears in your eyes  
Nowhere to go  
Ya hear me calling  
And you want to know  
Well I'm here to tell you  
I'll never leave you  
I'll never leave you  
My hand is out  
I say your name  
When we're together  
You won't be the same  
You hear me calling  
You know right away  
I'll say it again now to ya  
I'll never leave you  
You gotta believe me  
I'll never (I'll never leave you) leave you  
I'm trying to tell ya  
I'll never leave you  
You've gotta believe me  
I'll never (I'll never leave you) leave you  
You know I'll never leave you alone  
I don't want to see you live on your own  
I want you to say you need me today  
Oh I'll never leave you  
You gotta believe me  
I'll never (I'll never leave you) leave you  
I'm trying to tell ya  
I'll never leave you  
You've gotta believe me  
I'll never (I'll never leave you) leave you  
I'm gonna give you my love  
I'll never leave you
