

Marching On

Guardian

A white hot knight
A shining star
His freedom fight
His battle scars
Quick sight - wise might
Defeat the enemy
Life flows through the prince of peace

Marching on
On through all the years
Marching on
Through the pain and tears
Marching on
Hold the truth up High
Marching!!

The path of light
Before my feet
The word of life
Pure energy
Who's back -sidetrack
It's an evil attack
Battles we must run between

Marching on
On through all the years
Marching on
Through the pain and tears
Marching on
Hold the truth up high
Marching!!

A white hot knight
A shining star
His freedom fight
His battle scars
Quick sight - wise might
Defeat the enemy
Life flows through the prince of peace

Marching on
On through all the years
Marching on
Through the pain and tears
Marching on
Hold the truth up high
Marching on
The crown of life our prize
Hold the truth up high
