

## Iron Heart

## Guardians of Time

Cleansing your soul. Cleansing your mind  
Cleansed from all of desire  
Come to our fold. Step into our arms  
Shed off your desire

Here you'll be safe. All be alright  
There will be no damnation  
All what you are. All you can be  
Heading for salvation

Guide us into the light. Guide us in from the sun  
A heart of iron guides my way  
A heart with power all obey

This is our world. It's what we are  
Feel your heart tire  
Open your mind. Let us inside  
It will vanquish the fire

The fire that burns. The fire that yearns  
The fire that called desire  
No need to learn. Well make you turn  
Then we'll bring you higher

Guide us into the light. Guide us in from the sun  
A heart of iron guides my way  
A heart with power all obey
