It ain't a nigga in the industry that I wanna meet

Your favorite rapper a sucker that's not surprising to me

You can't be talking to the police then try signing with me

I ain't cosigning these niggas, I'm only vouching for me

I ain't letting these soft ass niggas stand on no couches with me

You niggas wasn't in no trap house stacking up ounces with me, pussy

I'm a business of building the man with the millions

You'se collateral damage cause boy you just a civilian

You'se a sheep in a wolf outfit boy you just a chameleon

And you blend in good, but I'll hurt more than your feelings

I'm a monster, a mobster, a contract killer

I'm a convict, a conman, an ex-drug dealer

I'm the bricks man, hit man, jack boy, kick man

Knock your door off the hinges, I hit big licks and

All my people like heaters, we don't like features

We love each other, but we don't like people

We crazy and violent and they can't teach us

Preachers couldn't reach us but the hoes gon' greet us

Cause we balling on you suckers, bitch want more on the bleachers

You niggas real dick riders, male cheerleaders

And you can't compete with Gucci so just follow the leader

Cause I'm still that boy from Zone 6 that might follow your Regal, pussy
