Gucci Mane

Huh?

(30, you a motherfuckin' fool, nigga)

She a tease, real calm, not skeezo  
Real fiend for the bling, bling, blingo  
Got cheese, I can really say bingo  
I'm a star, but I'm nothin' like Ringo  
Golf windows on the door like Jagged Edge  
Hell no, my name's not Wingo  
Gringo limpin' out of the casino  
Where's Waldo? Lookin' for the cargo  
My main foes fell off, where did they go?  
In Diego lookin' for the yayo  
I met a Mexican man that'll bust a head  
And for a peso, he'll make you wait, though

Yeah, that's my breasto, that's my besto  
My vest on my chest, he protect my flesh, so  
Let my best ho invest my escrow  
Bless her flesh 'cause she made my nest grow  
Bullets start ricocheting, think I need an echo  
Earthquake, aftershock, bitch just won't let go  
Family callin' for him, lookin', think they need to let go  
Hope they got insurance for him, probably need gecko

Drop my nuts, don't push my test  
Throw your foot on they neck, protect your threshold  
This the type of pressure, you don't need no stretcher  
Or the ambulance and then I let the alligator get you  
Bullets go to rippin', make the medics start trippin'  
Trap closin' early 'cause the Gucci Mane comin'  
Gucci Mane LaFlare, I got all kind of money  
Five thou', fifty thou', anybody count it  
All I really care about is did you do the business?  
Did you leave a witness? Nigga, did you pay attention?  
Heard what I said, nigga? Anybody get it  
I don't give a damn, nigga, you can really get it  
Mama in the business, then your mama 'nem can get it  
Broad down with, the whole family can get it  
You stupid little bitch, you put yourself in this position  
All this inchin' on my riches got my trigger finger itchin'

Yeah, that's my breasto, that's my besto  
My vest on my chest, he protect my flesh, so  
Let my best ho invest my escrow  
Bless her flesh 'cause she made my nest grow  
Bullets start ricocheting, think I need an echo  
Earthquake, aftershock, bitch just won't let go  
Family callin' for him, lookin', think they need to let go  
Hope they got insurance for him, probably need gecko

Gotta keep a breasto just because my neck froze  
Try to take my bankroll, I'ma leave his eyes closed  
Me and Wop together, all these bitches goin' psycho  
Where we keep them poles like a motherfuckin' pint store  
I come from the gutter (Mob)  
Now my mouth full of ice, she suck me like a sucker

Shit done gave me poltergeist and I would never love her  
Better try that other guy, just blow me like a bubble  
And I'll cum on your pretty side, yeah, I'm rich forever  
My bitch do not come around  
She don't wanna double cross 'cause bitch, I'm the triple cross  
I'll get 'em knocked off, sit back, use my dental floss  
Yeah, it's the Mayor, told you I'm the fuckin' boss  
Wop said, "Get this in your Mob and it's gon' go down"  
Send his head to his mama house to say I'm lowdown  
1017, So Icy Boyz, and we don't fuck 'round  
Bitch, I got my breasto, we can have a showdown, ho

Yeah, that's my breasto, that's my besto  
My vest on my chest, he protect my flesh, so  
Let my best ho invest my escrow  
Bless her flesh 'cause she made my nest grow  
Bullets start ricocheting, think I need an echo  
Earthquake, aftershock, bitch just won't let go  
Family callin' for him, lookin', think they need to let go  
Hope they got insurance for him, probably need gecko
