Part of my pain is run through problems
Stoppable I jump over obstacles
Stop my grind like stop sunshine
So improbable probable mission impossible
I said it two times nigga, nigga stop lying
Bullshit you sellin now I'm just not buying
Flow so nice but the kid's not kind
Swear its sicker than a new flu they got called swine
Standing on point like a unicorn
Strapped with a unibomb
Everdays a workday but dont wear uniform
Gucci mane a dubadun
Trouble like a capricorn
Trapper month goin on a money makin marathon
U the jocker I be robin
And the riddle is the batmans throne
Try not to fuck my money up and rap career like pacman jones
Thumb print me, finger print me
But can we agree to disagree
Im from east atlanta 6 where the boys dump bricks
But we dont bump the blueprint 3
Wanna box me jus like max speed
