

## Going In

Gucci Mane

Standing in V.I.P. a hundred fifty deep  
Jelwery all over me I look like Mr. T  
My necklace is full of diamonds hell yea I'm shinnig bright  
And bitches starrin at me starring so inpolite  
What a sight to see tattoo all over me  
A walkin work of art I took a lot of ink  
Kids want my autograph hoes want my phone number  
But I'm so damn conceited gave her the wrong number  
No need to speak I rather keep it brief  
I took a couple keys [?]  
Maybe to you but damn sure not to me  
Five hundred fifty a piece now that's a lot of trees

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again  
I play to win, I play to win

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again  
I play to win, I play to win

I ride exotic cars, I smoke expensive weed  
Yeah, that's the life of Gs and you are not a G  
And you can't walk with me because you are not with me  
He wants to get in free but he is not with the team  
This is not a dream and this is not a game  
Step on my denim jeans, is up by 50 grands  
Of in the club wgrams  
That's a half a pound we blew it like a fan  
Nigga I'm the man, women taking pictures  
They want to touch my hands they want to hit my swishers  
I'm fuckin with you, if you fuckin with me  
Cause we just bought the bar, so is ya drinkin with me?

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again  
I play to win, I play to win

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again  
I play to win, I play to win

I'm in magic city, the center of attention  
I'm standing in the light I'm lookin like a tiki  
A whole a milli I mean a cool million  
Since they know I'm ballin they want to have my children  
Want to feel it, do you really feel it?  
This isn't just rap is really how I kick it  
I'm chillin like a villian cause really I'm a villian  
So listen to my struggle I make you see my vision  
Like a blind man you can't see the kid  
I'm like a deaf man cause you can't tell me shit  
Bitches fight daily you ain't fight cases  
Got money so out wasted I'm thirty rolling glacier

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again

I play to win, I play to win

I'm going in, I'm going in, I'm going in, I'm going in, I'm going in  
Once again, once again, once again, once again  
I play to win, I play to win
