Hell and Back

Gucci Mane

(Zaytoven)
(I done been through hell and back)
Shoutout to my niggas goin' through hell right now, man
Free everybody, real talk (I done been through hell and back)
Keep your head up at all times (Hell and back, uh)
Yeah (I done been through hell and back)

I done been through hell and back, I saw hella crack (On God)
I done jacked a lot of niggas (Grrah), karma paid me back

Shoutout that boy 21, glad that nigga back
21 salute the gangsters (Grrah), R.I.P. the realest (Yeah)
Court-side shorty now ('Wop), Gucci got them racks
Ran off and got rich on 'em, still ain't paid 'em back (Nah)
Left me for dead, shot in my head
Standin' so hard, they hate that shit
What, you think I wouldn't go straight in that shit?
East Atlanta niggas don't go out sad (No)
If he want smoke, my foot on the break (Skrrt)
While punchin' the gas, now you do the math
Fresh off the road, pockets so swole
I drop the bag, they cut you in half (Grrah)
Laugh (Ha), hate these niggas with a passion (Fuck 'em)
Smash, trappin' like smash-and-grabbin'

I done been through hell and back, I saw hella crack (On God)
I done jacked a lot of niggas (Grrah), karma paid me back
(I done been through hell and back)
(I done been through hell and back)

Gucci Mane is in the Fulton county jail this afternoon
After a judge denied bond for him today
Gucci Mane, real name Rodrick Davis
Was denied bond on two felony aggravated assault charges
Not just because of what he allegedly did
But because of his past
Mr. Davis has a-, a history
You know, we're not gonna skirt that issue
A judge ordered a well-known Atlanta rapper
Handcuffed and taken to jail today
It also didn't help that Gucci Mane was arrested in July
In Henry County for DUI marijuana possession
And possession of a firearm by a felon
I was in a maximum security prison (Wow)
People dyin' daily (Damn)
I'm from everywhere, you know, it's serious
You know, federal prison, maximum security
It's-, you know, it's nothin' like that
And for me to see that, you know, I didn't know that world existed
I never knew so much violence and death and just depression
It's serious
You know, it's not a lot of people tryna help 'em
You know what I'm sayin'?
Like, they get me out when I've actually outdented myself
So it can happen, you know what I'm sayin'?
So you can't just lock somebody up, I feel like
And just throw away the key
