Gucci Mane

Hella ones, hella ones  
Make it rain, thunderstorm  
Make it rain, swing your chain  
Zaytoven and Gucci Mane

Hella ones, pour a drink  
Drink outta bottle, then make it rain  
Let's have some fun, got hella ones  
I'm having fun, got hella ones

Oh my gosh, I'm the sun  
And the moon, cartoon  
Yellow blue, who are you?  
And what are those? that's not a rose  
You changing clothes, I'm changing hoes  
Switch up the flow, then write some more  
Then drink some more, drink some more  
Then smoke, then smoke  
You ain't throwin ones shawty  
You broke, you broke  
Me and Zay, A to the Bay  
Fuck what you heard, we smoking purp  
We got work, got work  
Cheap price, cheap price  
Crazy color chains and don't they look nice? look nice?

Hella ones, pour a drink  
Drink outta bottle, then make it rain

I'm throwing cash, gonna get it back  
And do it fast, and come back, come back  
Cause I never seen a body like that, like that  
You remind me of some brand new 95 Air Max  
A pound of purp in tracks  
Baby girl you doing that  
And you killing it, I'm feeling it  
Pretty chick, you super thick  
Don't know what to do with it  
Matter fact I'm threw with it  
This my song, I (ruin?) it  
People like how she doing it?  
Got a major deal and they pay me all the millions bitch  
This my song, I (ruin?) it

I got a vette (got a vette) and a hummer
