

# Human Chandelier

Gucci Mane

Huh, D-O-G  
Wow, wow, wow, wow, Wop  
Yeah, huh, go, go

Is it a crime to be full of yourself? 'Cause I'm gettin' cocky as hell  
Ain't got time to be goin' to jail but I been feelin' myself  
For three months they say Gucci canceled, I'll be rockin' Chanel  
Know you heard 'bout my rep, I got murders on my belt  
Black and green Moncler ring, call that bitch the Boston Celts  
Sent a fiend to rehab but that shit didn't even help  
Tell the haters when they see me, "Look, but do not make no step"  
Slidin' through Charlotte in my Spyder, man, I think I left a web  
Dope jumping like Spud Webb, tell a hater go to Hell  
I'ma send a ting through the mail and drive the money in myself  
Early ting, East Atlanta, we was broke, we jumped the rail  
On my dick, had to ante up, pitch in to pay for bail (It's Gucci)

Water like a whale, cold as a polar bear  
The human chandelier, coldest nigga ever lived  
Diamonds in my ear, I look in the mirror  
What you lookin' at? The coldest nigga ever lived

Brand new truck, it's yellow, and it came with an umbrella  
Shawty got a bod' but she's a known woodpecker, 'pecker  
Crowd full of folks, Coachella, 'chella  
Mob hit like Costella, 'stella  
Wise guy like Goodfella (Fella)  
She wanna suck me up, I let her, let her  
Beat her from the back, it's better, better  
Told her hit back, she better, better  
Gucci Mane got forever cheddar  
Save a bitch, I never ever  
Grippin' on her head, I pet her  
Took her out to eat, I fed her  
Knew she was a freak when I met her, met her  
Fly ass and I jet her, jet her  
She drink it all up like kettle  
Dick rock hard, it's metal, metal  
Head so good, got a medal, medal  
Bad bitch, I'ma go get her, get her  
Broke hoes hate, they bitter, bitter  
I'ma leave money for the sitter, sitter  
I'ma keep rollin', they quitters, quitters  
They gon' keep trolling on Twitter, Twitters

Water like a whale, cold as a polar bear  
The human chandelier, coldest nigga ever lived  
Diamonds in my ear, I look in the mirror  
What you lookin' at? The coldest nigga ever lived  
Water like a whale, cold as a polar bear  
The human chandelier, coldest nigga ever lived  
Diamonds in my ear, I look in the mirror  
What you lookin' at? The coldest nigga ever lived
