

## Parked Outside

Gucci Mane

Imma run out front to see me when you walked out  
I'm in the candy old school with the music up loud  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Just wait until you see what I got parked outside

Now my vet is on 'shanties and my dunk is on crutches  
The hummers on 8s just to make your bitch thirsty  
Outside now is a cutlass on buttons  
It got so much pound you girl eardrums busting  
A school boy Chevy and the rims are off mustard  
A 66 muzzle got it smellin down cuesta  
The lam hit morlen plaza needing more bubble  
Ridin tinted window cuz my fan base doubled  
I dropped the top in the summer bitches in trouble  
Before the door slam my 74 burt rubber  
Nex light I seen the chick candy red rover  
Pulled up let the window down pull over

Imma run out front to see me when you walked out  
I'm in the candy old school with the music up loud  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Just wait until you see what I got parked outside

See the whips so big I feel I'm bout to fall down  
I gotta quarter pound of kush I'm bout to blow the house down  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside

Now the outsides candy but the insides oustrich  
You homeboys hate it but his girlfriends jockin  
Red light red stop sign dont stop it  
Quarter back dub stop it keep goin  
A/C blowin feelin like its' snowin  
Now where I'm goin even I'm not knowin  
But yo girlfriend is damn sho nosey  
She lookin in my car so I left the door open  
I'm gettin chosen  
Baby girl throat me  
1 mile later got baby girl chokin  
Whips skinny tires got me slidin like lotion  
I'm so high still I'm so focused  
I seen a red bone in a earth-toned lotus  
I said I'm Gucci Mane la flare she said already knowin  
I seen a red bone in a earth-toned lotus  
I said I'm Gucci Mane she said already knowin

Imma run out front to see me when you walked out  
I'm in the candy old school with the music up loud  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside  
Baby wait until you see what I got parked outside

Just wait until you see what I got parked outside

See the whips so big I feel I'm bout to fall down

I gotta quarter pound of kush I'm bout to blow the house down

Baby wait until you see what I got parked outside

Baby wait until you see what I got parked outside

Baby wait until you see what I got parked outside

Baby wait until you see what I got parked outside
