

## Straight Drop

Gucci Mane

Straight drop, straight drop  
Straight drop, straight drop  
I like it when you be on the top, straight drop  
Drop that thing just like you're in the pot, straight drop  
Straight drop, straight drop  
Straight drop, straight drop  
Baby girl you know you got that drop, straight drop  
She come clean, she never come rerocked

Straight drop, whippin', whippin' water  
I cook the dope way different than my father  
In the kitchen cookin' like my mama  
Straight drop, tryna run on me a comma  
Remember when I only had a quarter  
Rude boy tryna watch out for the informer  
But now I break down all my bales in Ferragamo  
Hugo Boss, [?], I just Donald Trump you  
Michael Kors sweater with cocaine on the garmet  
Woke up in mansion but I grew up in apartment  
That used to say [?] they like to start shit  
85 thou' on me now, right now, in hundreds

I like it when you be in the top  
All I do is make a lot of top  
Baby drop it like you're in the pot  
Baby girl drop it just like it's hot  
I'ma fuck you with that pussy wet or not  
Don't try run right now, I want that twat  
I'm the type to beat you all day  
Gucci from the block, so I don't play  
Drag a bitch to my house like a caveman  
Be my sex slave for the day, who wanna trade, man?  
Ain't ashamed to say grew up in Section 8, man  
If you ever been there like me then say "Amen"
